

Design Portfolio

HELLO!

I'M FADY ABDELGHANI

Senior Graphic Designer

A senior graphic designer with 10 years of professional experience in media production, digital services, and marketing.

Design, for me, is more than just visuals, it's about telling a story, capturing attention, and making an impact.

I don't stick to just one style. I adapt, experiment, and create based on what fits the brand and the message best. Whether it's bold and modern or sleek and minimal, I make sure every design feels right. Always learning, and evolving, because great design never stands still.

Social Media Designs

A varied collection of my projects, including individual social media designs tailored for specific audiences and full-scale advertising campaigns that integrate various digital channels.
